IMPACT REPORT

It's been said that individually we are a drop, but together we are an ocean. When it comes to what The Living City Foundation has achieved, we can't think of a more fitting sentiment.

Since early 2013, we've had the honour to serve as the Chair of the Board and Executive Director for the Foundation and we're pleased to report the results of our team's efforts.

Building on a solid foundation of donor support for Toronto and Region Conservation (TRCA) projects, we have seen a significant increase in the value of projects your donations have been able to fund. Simply put, our success has come as a direct result of your generosity and shared vision for The Living City.

The Living City Foundation serves as the fundraising and charitable arm of Toronto and Region Conservation, entrusted with all donations made to TRCA. Accountable to a volunteer board of directors, the Foundation connects, engages and inspires people and organizations to donate and support TRCA's The Living City Vision of a community where human settlement can flourish as part of nature's beauty and diversity.

Outlined in this report are a few of the key projects TRCA has implemented with support from The Living City Foundation. Of course, these projects were made possible only through the support of our caring donors, many of whom are listed below.

Whether you're a monthly donor, an event sponsor, project supporter, or general contributor, your support is greatly appreciated. More importantly, it's making an important difference in the GTA – where we live, work and play.

From the bottom of our hearts, thank you for partnering with us to ensure the good work of both the Foundation and TRCA continues now and for years to come.

Scott Fortnum
